
Affiliated Legal Networks

Munsch Hardt is a member of two international referral networks: ICC FraudNet and TAGLaw. These extensive networks are comprised of independent law firms from around the world that are carefully vetted and selected based on overall professional competence, commitment to client service, reputation within the legal community and evaluations among existing members. Once a member, firms are re-evaluated on a regular and ongoing basis.

Munsch Hardt is proud to be one of the few Texas law firms in FraudNet and TAGLaw. When clients need to retain local counsel outside of the Firm's immediate reach or seek sound advice on laws in a certain country, these memberships allow Munsch Hardt attorneys to connect clients with trusted resources around the world. Following are a few details about each network:

- FraudNet is a geographically expansive network of world-class asset recovery lawyers that helps victims recover their stolen assets with the same cyber-powered speed, stealth, reach and proficiency as the most sophisticated global fraud network. FraudNet's specialized network includes 68 members in 61 countries. www.icc-ccs.org/home/fraudnet
- Munsch Hardt is a member of TAGLaw, a global alliance of high-quality, independent law firms, providing a full range of legal services to clients all over the world. Founded in 1998, TAGLaw quickly rose through the ranks, and today is one of the world's largest legal networks. www.taglaw.com
