

Cross-Border Insolvency

Overview

Our attorneys are experienced in cross-border insolvencies, restructurings and offshore asset identification and recovery. We assist our international clients in United States insolvency proceedings and restructurings, and assist our domestic clients in foreign insolvency proceedings involving matters such as claims and contract enforcement, asset acquisitions and dispositions, nationalization of assets, taxation and regulation and litigation. We also have been involved in multiple ancillary and parallel United States proceedings in tandem with proceedings in other countries on behalf of or involving cross-border enterprises.

We assist foreign representatives in obtaining recognition and cooperation from United States courts, as well as obtaining recognition and cooperation from foreign jurisdictions, to assist our domestic clients. In addition, we are proud to have served as lead United States counsel for a bankruptcy trustee in obtaining the first recognition decree in Mexico under the United Nations' Commission on International Trade Law (UNCITRAL) Model Law on Cross-Border Insolvency.

Energy Representation

Represented an international financial institution with exposure in the Venezuelan Orinoco Belt in the out-of-court restructuring of petrochemical and heavy oil financings as a result of the Venezuelan government's privatization measures.
